

The FARM TRIBUNE

VOL. 5—NO. 2

Published Weekly at Porterville, California

Thursday, July 12, 1951

TOP QUALITY bulls are being groomed for sale and show at the AceHi ranch of Mr. and Mrs. Freeland Farnsworth in the White River country, with top pictures showing four animals that will be exhibited, but not sold at the Polled Hereford show and sale in Sacramento in November and, above, three bulls that are being conditioned for the Red Bluff sale next February. The Farnsworths have consistently registered more polled and horned Herefords than any other breeders in California and have conducted a long-time breeding program to improve conformation of the polled Hereford. Bull calves, brought off the range recently for weaning, averaged 620 pounds after being trucked about 25 miles prior to weighing.

Supervisors Kill Building Code On One and Two Family Dwellings In Strathmore; Zoning Pending

Tulare county board of supervisors voted to do away with building code provisions in Strathmore as applied to one and two-family dwellings at a regular meeting Tuesday morning. Larger structures are classed as commercial and come under the state uniform building code.

Still pending is the matter of zoning in the Strathmore area, since supervisors have received no recommendation as yet from the Tulare county planning commission on this matter. The planning commission has held two hearings in Strathmore relative to zoning, which is tied in with the building code in the existing county ordinance, with opinion expressed, strongly favoring repeal of the ordinance.

Zoning dissatisfaction is also appearing on other fronts. A petition from Woodville, where a zoning ordinance was put in operation about two years ago, is now at the county courthouse where signatures are being checked for validity.

The Woodville petition asks repeal of the zoning ordinance and public hearings will probably be

slated there, before the county planning commission, in the future.

Friday The 13th To Be Lucky Day In Porterville

Friday the 13th may be a bad day for some people, but Friday the 13th, tomorrow, will be a lucky day for those people who shop Porterville stores to take advantage of special sale items being offered by merchants throughout the town.

In The Farm Tribune, you will find many sale bargains that will interest you; and there are many others in stores of Porterville. Whatever your need is, it will pay you to come to town Friday and look around.

One feature of the sale will be the figure "13," used as a price on many items. In fact, it is remarkable what you see for 13 cents, \$1.13, \$2.13 and \$13.

The sale is sponsored by the business men's committee of the Porterville chamber of commerce, in cooperation with Porterville store people.

BLOOD NEEDED

Mobile blood unit will again be in Porterville, Monday, August 13, from 10 A.M. to 1:30 P.M. at the American Legion hall, to collect 75 pints of blood, badly needed now in Korea. Persons between the ages of 21 and 60 years should contact the Porterville Red Cross office, telephone 548, in order that they can be scheduled for August 13.

FARMERS MAKE HIGH PRICES? READ THIS

If the farmer gave away the wool in a \$50.00 suit of men's clothing, the suit would still cost \$40.50.

If he'd give away the wheat in a 16c loaf of bread, the loaf would still cost the housewife 13.4c.

If the dairyman donated the milk in a 22c quart for free the consumer would still have to pay 11.5c.

If the farmer gave away the beans in a 16c can of pork and beans your family buyer would put out 14c to get a can out of the store.

We have this to add: If Mr. Cotton farmer contributed the cotton for that \$3.50 broadcloth shirt you bought recently you still would have paid right at \$3.00 to own it. (Calcot News)

NEW TREASURER

George McDaniel was named treasurer of the Sierra View Hospital district, following transfer of bond from Stanley Shippert, former treasurer, at a meeting of district directors held Tuesday evening in the Porterville city hall. Directors present were C. R. Williams, Myron Tobias and Don Butterbaugh; absent, Ralph Tyrrell and Lawrence Unser.

GREATER RESISTANCE TO COTTON WILT SEEN IN NEW SEED

Meanwhile, however, Mr. Worrell has this to say: "Verticillium wilt is a soil fungus which attacks a number of plants grown here in the San Joaquin valley. Tomatoes, melons, alfalfa and other common crop plants are hosts of this disease in addition to cotton. In each plant it is called a wilt."

"In cotton the wilt fungus attacks the plants through the roots and then travels up the stem of the plant into the leaves. The first symptom the cotton farmer generally sees are yellow areas appearing on the surface of the leaf. These yellow areas gradually get larger and frequently turn brown and die. In cases of extreme infection the leaves may

"Slightly infected plants may

LOOK FOR YELLOW SCALE

By Wm. E. Shilling
Entomologist C. F. G. Exchange

Yellow scale has shown a continued and unusually heavy buildup in many groves this summer. Young scale started moving onto the fruit in early June and already has caused some fruit damage in untreated orchards.

In order to prevent serious damage to the trees and coming crop of fruit, growers in the yellow scale area should inspect their orchards carefully for this pest and treat promptly if it appears that a treatment will be necessary.

A small amount of scale at the present time can increase rapidly this summer and fall and can cause serious damage if allowed to go untreated. Fumigation is now under way and is the preferred treatment except in the limited areas where the scale is known to be resistant to HCN. A 20 cc dosage or higher should be used.

Where oil is to be used a medium grade at 2% is recommended, applying a thorough coverage. On navel, work should be completed by the middle of August and in the case of Valencia, by the middle of September.

Where parathion is to be used the material is preferably applied

Control Brush Burn On Guthrie Ranch Tuesday

First control brush burn for 1951 is slated for next Tuesday in the California Hot Springs district on the John Guthrie ranch and U. S. Forest Service property, with the Tulare County Range Improvement committee, the U. S. Forest service and the Agricultural Extension service co-operating.

Cattlemen from throughout Tulare county will meet at Uhl station at 8 P.M., July 17 to assist with the burn. The program, being conducted in the foothills areas throughout Tulare county, is designed to replace brush areas with productive, pasture areas.

Some 200,000 acres of land in Tulare county is now covered with brush. Following control burns, the area is seeded to good forage-producing grasses for livestock.

Results obtained in control burns show that not only is brush land turned into grazing land, but that water conditions are also improved, since grasses need less water than brush. It is not uncommon for springs to start running.

(Continued on back page)

MORE CAMPS SOUGHT IN MOUNTAINS

A move to secure more public camp grounds in the Sequoia National Forest, also to improve and provide better maintenance in present camp sites, was launched Tuesday evening by members of the Springville chamber of commerce.

The chamber points out that existing camp sites in the Sierra mountains of southern Tulare county are not adequate to meet tourist demand. Springville business men report that many campers who came into the mountains for the Fourth of July holidays, had to turn back because no camp space was available.

The Springville chamber will seek support in its efforts to get more public camp grounds from other chambers of commerce in the county, with a group from Springville expected to meet with the Porterville chamber in the near future.

Officials of the Sequoia forest will also be contacted concerning problems relating to the program advocated by the Springville chamber.

Other business of the Tuesday meeting of the Springville chamber included authorization of efforts to have the state highway between Porterville and Springville resurfaced and repaired in rough areas. Recently, shoulders of the highway were worked, however, no other maintenance or repair was done.

Other Springville organizations are joining with the chamber of commerce in the effort toward road improvement.

GILL CHAIRMAN

Vernon Gill, Springville rancher, was reelected chairman of the board of trustees of Porterville Union High School and College at a board meeting Monday evening. Mrs. Neva Darr, Porterville, attending her first official meeting, was named clerk; other members are: Francis Muller, Ducor; Herman Matzke and Emory Kincaid, Porterville.

COTTON GOOD

Reports from growers indicate that cotton in southeastern Tulare county is coming along in good shape, with the crop showing a particularly good growth during the past two weeks. A record crop, from acreage in Tulare county, is practically a certainty and it is expected that ginning will continue through the regular season into spring months.

SOUTHERN COUNTY 4-H BOYS AND GIRLS AT SECOND SESSION OF SUMMER CAMP

A number of southeastern Tulare county 4-H boys and girls are attending the second session of the 4-H summer camp that opened July 8 at Whitaker forest, including:

James Bodley, Robert Bodley, Adair Brown, Allen Edsell, Ernest Edsell, Jean Leon Faure, Robert Hein, Donald Shannon, Glenda Holbrook, Viola Meier, Joanie Musiek, Bonnie Traylor, George Meier, and Sarah Wells, Vandalia.

Richard Carlson, Rodger Faintinger, Norma Beaver, Patricia Calison, Linda Hutchinson, Brenda Sue Santry and Judy Taggard, Pleasant View; Earl Carrell, Johnnie Carrell, and Jerry Searcy, Woodville; Ronald Depolet, Billy Sandborg and Vess Trotter, California Hot Springs.

Theodore Smith, Linda La Fond, Martha Matusko and Em-

Mildred Burkhart won first place; Holley Borum, second and Lloyd Brown, third in colored slide competition that featured a regular meeting of the Porterville photography club held recently at the Dale Weaver home, with 25 members present, and with 53 entries in the contest. Next meeting will be held the evening of July 16 at the Travis Elliott home near Cotton Center.

Brown Swiss Tops Association

A registered Brown Swiss cow, owned by Mrs. B. F. Weaver, Visalia, completed the highest 305-day lactation period during the month of June in the Tulare County Dairy Herd Improvement association with 18,704 pounds of milk and 816.9 pounds of butterfat.

Mr. and Mrs. Warren McQueen of El Segundo and Miss Georgia Lewis, of Bakersfield, spent last week in the Fred Hopkins cabin at Cedar Slope. Mr. McQueen is principal of El Segundo High School.

Homemakers' Camp At Whitaker Forest

A variety of crafts, recreation, rest and relaxation are promised for the Homemakers' Summer camp at Camp Bruin, in Whitaker Forest, July 22 through July 28, with homemakers from Tulare, Fresno, Kern and Kings counties to attend.

Women from Tulare county, interested in attending the camp, should contact Miss Clara E. Cowgill, Post office building, Visalia.

Volume supply of early onions is coming primarily from Stockton, Merced and Los Angeles county districts.

FOR THE LADIES

GLARE, SHADOWS WORST ENEMIES FOR YOUR EYES

By Clara E. Cowgill

Glare and harsh shadows are the worst enemies of the eyes. Good lighting is enough light of the proper quality.

Worst offender in home lighting is the bare lamp bulb. All lamps for reading, studying, sewing, or other jobs which need eye work, should have diffusing bowls or a white indirect lamp bulb to refine the light.

No lamp will give good service unless it has the right size bulb and is placed correctly with respect to the seeing task. Use 150 watts for studying or sewing, with the lower edge of the shade 15 inches above the desk top, or 12 inches above the top of the sewing machine.

MR. and MRS. EARL GRAY, of Porterville, their daughter, BETTY, and MR. and MRS. GEO. RAND, of San Luis Obispo returned this week from a trip to Maggie lake. They report good fishing in the lake, not so good fishing in the small streams and washed out sections of trail along the way resulting from last November's heavy rains.

Black Widows Killed By Spray

Black widow spiders can be controlled by residual sprays of DDT or lindane according to A. E. Michelbacher of the University of California college of agriculture. He states that 1 per cent wettable DDT, 0.2 per cent wettable lindane, 2 per cent water emulsion of DDT, or 0.4 per cent water emulsion of lindane will give effective control.

The black widow is usually found in dark protected areas and under piles of wood or rubbish where it spins its loose, irregular, coarse-stranded webs.

These spray solutions are inflammable and should not be applied near open flames of any kind. Treatment for black widow spiders will usually control most other spiders.

Less Expensive Lamb Cuts Are Good

There is more to a lamb than just leg and loin chops. Home Advisor Clara E. Cowgill, of the University of California Agricultural Extension service, believes many homemakers would benefit by studying a lamb carcass chart to help her choose the less expensive cuts.

The average shopper thinks principally of the leg and the loin and rib chops when buying lamb. These cuts are in greatest demand and usually cost more per pound than the less popular cuts.

Shoulder chops are just as good as rib chops, Miss Cowgill says, and cost less. A rolled shoulder roast will be as nutritious as a leg of lamb and much easier on the budget.

Grapes On Market
Housewives can expect the arrival of Thompson seedless grapes on the market about the middle of this month, with indications being that supply will be plentiful as the season goes along.

R. D. MILLER, University of California agricultural experiment station, has developed a new technique for measuring soil moisture tension in the top two or three feet of soil.

FINS UR EATHERS

By Phil The Forester

Fish and Game Pilot Al Reese flew quietly into Fresno late last week, took on a load of 21,000 fingerling rainbow trout and distributed them in eight High Sierra lakes. A second load resulted in 21,875 rainbow fingerlings being dropped in six more lakes.

This was Al's second trout planting by plane job in this area this season. On his first trip in June 1948, 520 fingerlings were planted in 46 lakes so the total for the year represents practically a quarter million trout planted in 60 lakes in this district. The program is undoubtedly here to stay as the time saving element and economy factors should be obvious.

Total flying time for this sea-

son's San Joaquin Valley high elevation trout planting work can be estimated at about ten hours costing some \$320 as plane operation expense and pilot's salary. This works out at \$5.33 per lake. The job that took Al ten hours to do would call for about 20 pack animal trips and around 35 men days plus the cost of the pack stock.

MIDNIGHT RIDE

Last Monday evening, ten Idaho beaver were loaded aboard a truck in Siskiyou County and by relay driving, arrived in Fresno during the wee small hours of the following morning. This midnight ride of the eager beaver was to prevent the fur coated, four footed dam construction engineers from suffering, maybe fatally, from the terrific heat of the day. Some of the animals were trucked into Indian Creek and the balance taken to Jackass Meadow below Florence Lake.

This beaver transfer was a part of a rather extensive program being undertaken by the fish and game commission to improve stream conditions by beaver stocking. One other area in Fresno County and three in Tulare County have previously been successfully taken care of by beaver. Other plants made but success undetermined at this date are: Fresno County 4, Kern 3, Madera 6 and Tulare 8.

Quite a number of additional central California streams are scheduled for more beaver and it's unfortunate that plane facilities are not readily available. Pilot Reese has perfected a beaver parachute drop system that makes the entire animal transfer and stocking program a rather simple procedure. Without the plane parachute drop, some of the remote mountain areas would take considerable time to reach with pack stock to the extent, in some cases at least, to where the project would have to be deferred. However, what fish and game needs is more plane time availability.

We have been talking about check dams as stream flow improvement projects to create better fishing for years without doing much about it. We have nature's own stream improvement facilities available but are short modern transportation. Organized sportsmen will have to request a permanent plane and pilot for central California at the next State fish and game budget hearing.

Catchable size trout recently planted in the Kern River and tributaries, the Kaweah and the streams west of Greenhorn Mountain.

LEAFHOPPERS

Both grape thrips and the green potato leafhopper produce summer symptoms of damage on grapevines. Neither of these insects is believed to do great enough damage to warrant control, although the distortion of growth is very noticeable and a concern to growers not acquainted with these insects, says Fred Jensen, farm advisor.

High temperatures in Coachella valley have just about washed up the tomato deal there.

Sulphite In Meat Brings Stiff Fine

Charged with adding sulphite to ground meat, a violation of the State Health and Safety code, three operators of the Fairway market of Tulare plead guilty July 6, 1951 before Exeter Justice of the Peace Holden C. Broaders.

The trio, Gong Bing Chong, Wong Hen Kay and Wilfred Young paid fined of \$350.00 each. There have been previous convictions of this market for violation of the same sections of the Health and Safety code.

The sample of meat was picked up by M. B. Scott, Sanitarian of the Tulare County Department of Public Health during a routine inspection of meat markets.

APPLY CRYOLITE NOW FOR FOLDERS

By Fred Jensen, Farm Advisor
Apply cryolite now if the second brood of grape leaf folders are present. The population of leaf folders is not high but are always present in a few vineyards.

The eggs laid by the second brood are deposited on leaves rolled by the first brood. The young larvae feed in groups but may enter old rolls instead of feeding between webbed leaves. After a short period of group feeding the larvae disperse upward and outward to make new rolls. Each larvae makes at least two rolls before it is full grown.

The cryolite dusts contains 40 or 50 per cent cryolite and sulfur so that the dust may be applied as a part of the mildew control program. Twenty to twenty-five pounds of this mixture per acre is the recommended application.

THE OLD DAYS

From innumerable files of pioneer Porterville newspapers, provided through the courtesy of Howard J. Frame, Porterville.

PORTERVILLE ENTERPRISE
April 17, 1896

In another column can be seen the advertisement of Frank Haskell, the proprietor of the new White River stage line. Mr. Haskell has a very fine double seated stage, comfortable to ride in and drawn by the best of stock.

He can easily carry trunks for commercial men, having an appliance fixed at the rear which is adjustable for that purpose. Mr.

Haskell is well known and business entrusted to his care will be promptly attended to.

Mrs. F. M. Nell of Visalia is over visiting Judge and Mrs. P. P. Davis.

Mrs. P. F. Moore of Stockton is visiting her parents, Mr. and Mrs. W. J. McCown.

R. Bradley, cashier of the Pioneer bank, went to San Francisco on business last night.

The Porterville Lumber company took five shares in the new proposed Mt. Whitney Telephone company.

Mrs. Jake Lewin and family arrived last Saturday from Oakland on a visit to Mr. and Mrs. Henry Traeger.

Henry Ford, wife and family, returned last Friday from Yuma, Indio and Riverside, where they have been visiting.

Victor Stoltz of Visalia was in town during the week, investigating the matter of the finding of skeletons near Coburn's dump. A few years ago a man named O. B. Castillo disappeared in that vicinity and he thought his remains may have been found, but on investigation, the skeletons proved to be those of Indians which had been dug up by a German scientist who is hunting relics.

Great preparations are being made for the White River picnic. It will be held at the same old place and all will have the same good time as of yore.

Mrs. E. W. Beebe, the district deputy of the Order of the Eastern Star, will pay an official visit to the Tulare chapter, April 20th inst., and the Visalia chapter April 24th. Mrs. Beebe returned last night from visiting the chapters at Delano and Bakersfield, being accompanied on her trip by Mrs. M. K. Shuey.

The baseball game played last Sunday between the Visalia and Porterville nines resulted in favor of Visalia, 14-8.

There is a good deal of sickness at the Indian reservation, two children having already died. At the request of Agent Stice, Dr. Hardeman went up to the reservation this morning.

Ask for Porterville flour and be sure you get it; 95 cents per sack.

THE FARM TRIBUNE

July 18, 1947

Architectural plans are now being drawn for Porterville's state hospital and it is possible that actual construction work will be

started within one year, it was reported this week by Harry J. Johnson, California assemblyman from the 36th district.

Two hundred six families that now occupy the Woodville Farm Labor Supply center have been ordered to move not later than September 30, 1947, as the United States department of agriculture takes initial steps toward closing 27 similar camps in California as well as camps in other states.

First season shipment of Thompson and Red Malaga grapes left this district Tuesday from the P. J. Divizich Fruit Corporation at Ducor.

"Artificial rain" delivered through a sprinkling system seems to be shaping up as one answer to the problem of more efficient land and water use in this area, with the newest type system now in operation at the Francis Muller ranch near Ducor and with a similar system being installed at the Raymond Muller ranch, near Terra Bella.

Total combined income from Porterville Future Farmer projects during the past year amounted to \$17,169.14, it has been announced by R. L. Hooper, head of the Porterville Union High School Agricultural department.

Contracts will be let in the near future for improvement of Olive street from a point one mile west of the Tule river bridge to Cot-

Kirby Grant, motion picture star, will ride as grand marshal at the head of a pageant parade that will open the July 29 program of the Firebaugh Cantaloupe Roundup, scheduled for Firebaugh July 26 through 29.

ton Center, according to Supervisor Jay Brown.

PREDATORS KILLED

More than 900 predatory animals, ranging from skunks to mountain lions, were taken during May by the 41 hunter-trappers of the California Division of Fish and Game. The month's catch included 243 coyotes, 162 bobcats, 58 raccoons, 69 skunks, 11 bears, 2 mountain lions, and 319 other predators.

Agricultural Labor Bureau of the San Joaquin valley, with the bureau able to apply for supplemental labor only on written order of a bureau member.

The following information is necessary on the application: Number of workers wanted; location of work; approximate dates labor will be needed; unskilled agricultural activities for which workers are needed; housing and other facilities offered by the farmers and prevailing wage rate, this latter must equal the prevailing rate for domestics in the area of employment.

New crop garlic is coming on from the Hollister, Gilroy and Firebaugh areas.

STAFF WORKERS PROVIDE ACTIVE SUMMER PROGRAM

An active program of hiking, crafts, swimming, nature study and other instruction is being handled at the Tulare county 4-H summer camp in Whitaker Forest, with men and women from throughout the county assisting. Included on the staff are:

Keith Kelley, Visalia, director; James Andreas, Earlimart, and Margaret Wilson, Porterville, junior directors; Don Bryant, Madera; Nancy Serafino, Porterville and Kenneth Kramer, Earlimart, lifeguards; Melvin Khachigian, Visalia and Margaret Lopez, Earlimart.

K. P. supervisors: Charles Mast, Visalia and Bernice Keith, Tulare, Craft supervisors; Mrs. Peter Block, and Mrs. Nellie Huntington, Fresno, and Jim Keith, Tulare, cooks; Anne Knight, Woodlake, nurse.

Counselors include: Evelyn Gummow and Nadine Costner, Visalia; Mrs. Clifford Stevens, Kingsburg; Mrs. Ed Taylor, Frances Wilson, Mrs. Georgia Townsend, Mrs. Titus Horst, Porterville; Mrs. A. J. Mauler, Mrs. Harold Paxton, Mrs. Pearl Cooley, Tulare; Mrs. Irene Stanley, Waukena; Virginia Andreas, Earlimart; Betty Warmuth, home advisor and Farm advisors John Emo and Bill Sallee.

"Y" CAMP

Attending the YMCA camp at Camp Tulequio last week were Johnnie Backich, Royce Bartlett, Richard Daybell, David Donaldson, Douglas Mead, John Melvin and Charles Melvin, of Porterville. One of the camp leaders is Melvin Daybell of Porterville.

"Loud" Shirts

Women have become the nation's biggest wearers of "loud" shirts, according to a recent fashion note, with more than half the blouses worn by American women now in plaids, bright stripes or neon solid shades.

J. D. TRIMMELL, with his family, has moved from Springville and is now at Concord, California, where he has a 12-acre ranch for his Arabian horses. He is a director for the R. A. Conyes corporation, with offices in San Pablo.

SCOTT'S COLUMN

Wish you'd thought of it? Woman with a bill due and the check to pay it in her hand met the manager of the business on the street. She handed him the bill and money and went on about how his taking it there and then would save her a trip. He insisted he'd much rather she went to his office to pay it. Her reply: "Brother, I'm blond; but not THAT blond" Plenty of the rest of you smart gals too . . . you'll be shopping at CLAUBES PHARMACY'S big July sale as advertised in the magazines by Rexall, as advertised in the papers, as advertised in the circular you got in the mail.

Those nuts you saw catchin' fish bare handed at Coffee Camp Sunday were crazier than they looked . . . they caught fish O. K.; but they cooked their backs and legs and are now too sore to walk and too blistered to lie down! Anyway, river water is easier on your hair than swimming pool water, but any kind of water and sun in too large doses are hard on your wig. It'll need special care during the summer. Call 107-W for a good permanent at FLORENCE PEAK'S BEAUTY SALON. Three operators to give you the best in all beauty services. Free parking in the shade.

Bumper crop of babies this season reminds me of the fella who was accused of asking too much for his farm land. His reply: "The Lord's puttin' more people on earth all the time, but he ain't makin' no more land!" . . . and water . . . we can add! Make the most of your water, save on fuel, plumbing, soap, wear and tear with CULLIGAN SOFT WATER. Call Lindsay 2-4052.

Guess your age, Lady!!! Remember the thrill of the ride in your community's first Model A Ford? I also remember the thrill in senior year at college when invited to ride in the campus' first V-8 Ford . . . even remember the fella's name! Garth Scruggs. "Keen!!" we said, then. Everything was keen . . . picnics, clothes, people, "keen time," everything we'd be tempted to record in a snapshot. For the fastest service, for jumbo size at no extra cost, for good developing and printing at the lowest prices, insist that your film go to EDWARD'S PHOTO FINISHING SERVICE. When you leave film at the drug store, insist Edwards do the job.

Take heart, tho this has been a bad year for camellias, the lilies of the valley didn't bloom, (I've checked on the Brey's, Mrs. Konda's, Zoe's) . . . the tuberous begonias are going to town. Never remember them being lovlier. And it's a perfect season for relaxing with summer reading. BREY'S BOOKSHELF lending library supplies you with the latest, funniest, most mysterious, pleasantest reading in town. Only 3c a day! See Marie about magazine subscriptions and renewals . . . gifts, Xmas orders, any magazine printed including professional and trade journals.

Republicans had our day . . . when we listened to all the woes of the depression blamed personally upon each of us. Now it's the Democrats' turn with high taxes. Be warned: if you are an active, politicin' Democrat . . . never, never mention high taxes locally. One man hereabouts is being laughed and sneered at . . . for just that. He yells about high local taxes, apparently forgetting his glass-house situation. Watch it, Bub, other Democrats are hating you for it! You'll get cleaned and not pleasantly as your clothes do at PROCTOR'S CLEANERS! Proctor's turn old clothes out looking like new. The Retexing they give all fabrics . . . free — as well as their regular extra-careful cleaning makes a big difference.

Read in the paper the other evening that Polio has increased so in the last seasons that there is no longer a way to measure it! What used to be considered epidemic is now usual! Call LUMLEY-REED INSURANCE AGENCY immediately and take out a policy to cover your whole family for \$10, adults get it too. Be smart, talk over your whole insurance schedule with Aub. and Earl. Carrying all your policies with one agency will save you money, guarantee the fullest coverage and eliminate waste. You don't take each of your legal problems to a different lawyer, you don't call a different doctor for each symptom.

Still can't see why people drive miles and miles in the heat to have a picnic when they could have a better, less expensive, more comfortable one in their own yard. For an enjoyable vacation life all summer, see BREY-WRIGHT LUMBER CO. Set up your outdoor living room. Sand boxes, barbeques, picnic tables, fences, trellises, arbors . . . you can build them all yourself easily and economically. Brey Wright has everything you'll need . . . even barbeques on wheels and ones with ovens. 10% down, 30 months to pay.

"Tain't fair! In the summer there are more clothes to be washed and ironed . . . just when the weather is the worst to do it in! Remember my amazement at hearing that my Danish friend's kin in the sub-arctic saved up their washings for months for the weather to be washing-weather! Imagine the supply of clothes and lines that takes! Be smart, take life easy with an automatic washer and an ironer from Sears'. Stop at SEARS' ORDER OFFICE, Main at Oak and see the fine washer, fully automatic, with agitator, and top opening so the kids can't dump it all on the floor. Cute lil' ironer, so much easier than hand work. Washer \$239.95, ironer \$154.95.

Dear Barn Thespians in Yosemite, You'd better come home! Shadrack's nerves are shot! He was afraid of the fire-works on the 4th. That ain't the true barn spirit! Or maybe he needs a vacation in the mts. too! Note to all going to the mountains, make your last stop at the PORTERVILLE PRODUCE, Orange at "C." Take ice cold melons and fresh vegetables with you, get the best for less. Specials this weekend will cover all the vegetables, fruits, and melons in the market. Lowest prices will be posted each day. One example will be fresh local corn 25c a doz.; another, black eyed peas 2 lbs. 25c;

We Only Heard

By BILL RODGERS

CALLED TO task was one Bill Rodgers for the following statement, made last week: "Real estate men who opposed the sewer bond (in Porterville) should waste no time in publicly announcing a better plan, for there is no question but that Porterville must do something about its sewer situation . . ." For the record we'll say we were not referring to the board of realtors or to any organization of real es-

tate men. As far as we know, there was no official action concerning the sewer bond issue by any organized group of real estate men . . . Now, we'll state again that sewage disposal is the No. 1 problem in the Porterville area as of right now. And we'll say again that real estate men should waste no time in coming up with a plan for sewage disposal . . . And we'll add that every service club; every civic group, including the chamber of commerce; every individual, for that matter, should be concerning themselves with the sewer problem . . . The odor arising from

the present plant answers the question of whether or not something needs to be done. The only problem is just what, and that's a problem the Porterville area (we say area rather than city) had better get to working on, pronto . . . Only action so far is a plan by the city to charge a 75 cent sewage disposal fee in order to build up funds to replace existing sewer lines, install new trunk and outfall lines, acquire sites and rights-of-way in connection with sewage disposal and to repair, maintain and construct sewage disposal facilities . . . We're all for this 75 cent charge . . . Only trouble, total amount raised through this means is estimated at \$25,000 per year. That's not enough, and it comes too slowly to meet the real problem . . . Real estate men, business men, citizens, property owners better get to jumping . . . Sewage disposal is the No. 1 problem in the Porterville area, as we stated above and as we also stated last week.

THIS AND THAT — Speaking of city plans, the proposed amusement tax is no good in our book. Theatres would be the big con-

tributors in an amusement tax deal in Porterville, in fact practically the only contributors; it's not a fair shake . . . Q. What happens to a defeated United States senator? A. They become federal lobbyists. At least Democrats Scott Lucas of Illinois and Francis J. Myers of Pennsylvania, defeated in their last attempts, are now well-paid lobbyists, as is Sheridan Downey, who faded out of the Senatorial picture in California last election . . . Between six and eight thousand varieties of grapes have been named and described; 40 to 50 varieties have commercial value . . . Judging from conversations, one of the great items of discontent in regard to county zoning is the treatment received by citizens in the county office of the building inspector. It is our opinion that with proper meeting of the public in this office, the present turmoil over zoning might have been avoided.

Heavy volume of carrots is moving from the Salinas valley and Oxnard.

Commission Report
Peaches, plums, tomatoes and potatoes were the principal crops being harvested for market during June in Tulare county, according to the June report of Oscar L. Hemphill, Tulare County Agricultural commissioner. Pest control showed a definite increase and rodent control moved along fast, with poison grain used mostly. The usual agricultural inspection program was carried on through the commissioner's office.

A 1,054,000,000 bushel wheat crop is predicted in the nation for 1951.

**GUARANTEED WATCH REPAIR
ONE OF SERVICES OFFERED
BY EKMANS AT JEWEL BOX**

PROBABLY NOTHING is as useless as a watch that does not run — or a watch that runs in fits and starts — but, really, there is no excuse for owning a watch that is not in perfect running order, since Ranold Ekman, at THE JEWEL BOX, opposite Porterville high school, can take practically any watch — or clock — that is out of order and get it back in shape and running accurately again.

FIFTEEN YEARS of practical experience in watch repair lie back of Mr. Ekman. This experience, plus use of the Weston Electric Watch Master that scientifically tests the accuracy of your watch, assure a high quality and satisfactory job when you leave your watch at THE JEWEL BOX.

AND, INCIDENTALLY, your watch will get the same attention given to watches of railroad men — watches that must be absolutely accurate — since Mr. Ekman is Southern Pacific Watch Inspector for Porterville.

OF COURSE, ALL WORK AT THE JEWEL BOX IS GUARANTEED WITHOUT QUESTION. And that applies to those smaller than small wrist watches, pocket watches, and all types of clocks.

IF YOU are in the market for a new watch, THE JEWEL BOX has the famous Hamilton and Elgin products, in addition to several types of water-proof and shock-proof Swiss movement watches; also General Electric, Telechron and Westclox clocks.

OR, PERHAPS you are interested in special types of clocks — Cuckoo clock, Grandfather clocks, 400-day clocks, Golden hour clocks or other old or modern designs. If you are, you will want to check the order service offered by THE JEWEL BOX.

BUT WATCHES and clocks are not the only concern of THE JEWEL BOX. Mr. and Mrs. Ekman handle jewelry, stationery, greeting cards, school supplies, silverware and electrical appliances. And engraving is provided without charge on items purchased at THE JEWEL BOX.

THERE IS always parking space at THE JEWEL BOX. (It's free, you know.) And you can't miss it; opposite Porterville high school on west Olive street.

WHAT CONSTITUTES RELIGIOUS MEET IS PROBLEM

Just what constitutes a sectarian religious meeting seemed to be the basic question involved when representatives of religious groups met with members of the Porterville Union High School and College board of trustees Monday evening, the meeting resulting from refusal of the board to grant use of the school auditorium for a June mass meeting of Pentecostal churches.

Frank Snider, assistant county counsel, reviewed the state law concerning use of school buildings for religious purposes and it appeared from his comments that there is no question but that the state constitution forbids such use.

But in general discussion, it was evident that it is extremely difficult to determine the line at which a meeting become primarily religious or sectarian in nature. It was also pointed out that the school board, can if it so desires, let out the use of the school auditorium on bid, with the highest bidder getting the auditorium. Bids must be adver-

tised.

Following a two-hour discussion, in which some 40 church representatives participated, board members stated they will take the problem under consideration and will publish a statement as to policy in the future.

CALIFORNIA COTTON INCREASE

With an estimated 1,341,000 acres under cultivation as of July 1, California cotton acreage has shown a 229 per cent increase over last year, according to the California Crop and Livestock Reporting service.

Cotton acreage under cultivation in the United States on July 1, 1951, is estimated to be 29,510,000 acres, about 158.6 percent of the planted acreage a year ago.

In this large expansion of cotton culture in California small plantings have been made in various counties which usually have not been producing cotton. Also, California cotton acreages are more irregular than during most years as more inferior land has been planted to cotton than usually occurs.

The Farm Tribune

CLARENCE TOOLE, Porterville high school faculty member, is working as a counselor at the Kin-yon boys' and girls' camp north of Springville.

Farm incomes have declined 27 per cent since 1947 despite a 16 per cent rise in the national income during the same period.

CALF MANNA raises better fowls and livestock

It is significant that CALF MANNA has been used in the ration of more Grand Champions and more World Champions than any other commercial ration. It is the favorite in every state in the Union. CALF MANNA saves labor, money and often the lives of farm livestock. If you keep horses, cattle, hogs, chickens, turkeys, rabbits, goats, sheep or fur animals—you need CALF MANNA!

A LITTLE DOES SUCH A LOT!

We will gladly tell you all about CALF MANNA if you will come in.

"We've Got The Blues Again"

Blueberries are in season again! A short season this, so make the most of them by using in a variety of ways. Of course, they're wonderful "as is," dewy fresh and crystal cool. But give your family a variety of blueberry treats; serve these wonderful, fresh "blues" in cobblers, muffins, pies, puddings, shortcakes. And, for something different, how about Blueberry Waffles à la Mode? Top warm, fragrant waffles with a scoop of vanilla ice cream and "sauce" with golden, maple-blended syrup. That's a special combination you can serve for dessert or for afternoon refreshments. The recipe for the waffles is given below. No recipe is needed for the sauce; simply use the maple-blended syrup just as it comes from the bottle or familiar log cabin tin.

BLUEBERRY WAFFLES À LA MODE

2 cups sifted flour	2 eggs, well beaten
2½ teaspoons double-acting baking powder	1½ cups milk
¾ teaspoon salt	½ cup melted shortening
	1 cup blueberries

Sift flour once, measure, add baking powder and salt, and sift again. Combine eggs and milk. Add to flour mixture, add shortening, then mix only until smooth. Add blueberries to batter. Bake in hot waffle iron. Serve with scoop of vanilla ice cream and maple-blended syrup.

SPRINGVILLE NEWS

By WINNIE GAGE
July 5, 1951

Mr. and Mrs. Edward Plemers of Fresno, former residents of Springville, were weekend guests at the home of Mrs. Charles P. Hodges.

Mrs. Roy S. Drinker of Kansas City, Kans., is visiting her sister and brother-in-law, Mr. and Mrs. R. H. Shaw.

Mr. and Mrs. Robert McCarty and daughter, Patty, of Oxnard are visiting Mrs. McCarty's parents, Mr. and Mrs. Ward Hance.

Lena Fay Towers of Shafter is visiting her aunt and uncle, Mr. and Mrs. Jack Sanders.

Mr. and Mrs. Joe McDonald spent the weekend at Yosemite Park.

Elaine Hubbs has returned from a week's visit with her friends in Los Angeles.

Bob Maynard from Inyo Kern Air Base, Duke Johnson from Jaimini, and Richard Frost from the Army, spent the weekend home.

Ted Frost left Monday for Lack-

land Air field in Texas.

Jack Gregg, of the Navy writes his folks that there is a chance of getting to visit them in September.

A group of community leaders met at the new home of Mr. and Mrs. Wesley Maas last Friday and a community recreation council was formed. Mr. Lapi, chairman of the committee and Miss Virginia Radeleff, secretary and treasurer. Each organization and unorganized interested group is to have a member on the council. The equipment for volley ball, badminton, tennis and shuffle board have arrived for the slab.

Quaken Aspens Meadows store has opened for the summer. Mr. and Mrs. Harry Verheul of Hanford are the new owners having purchased the store from Albert Jones.

L. White left Saturday for Alta where he has employment with the Fisher Lumber company. His family will move as soon as he can find a house.

Mr. Borges has resigned his position as janitor and bus driver at the grammar school and he and Mrs. Borges have moved to the coast.

Whether you have a kitchen with the most streamlined conveniences or have to make-do with the old-fashioned type of equipment, the best recipe for keeping your drain clean and clear is to pour one tablespoonful of an ad-

proved chemical drain cleaner each week down the sink outlet. This homemaker uses it after arranging flowers from her summer garden so that tiny leaves, bits of fern and fallen petals will not clog up her drain.

Honeydew acreage in California, planted for 1951 harvest, is estimated at 6,800 acres, up 300 acres from the previous year.

Bulk of California Persian melons are produced in the west-side area of the San Joaquin valley. The state has 2,100 acres this year.

W. L. Bailey has opened his new store at Cedar Slope on Highway 190. He is carrying a small stock of groceries which will be increased according to demand. He has rest rooms for the comfort of wayfarers. Mr. Bailey also has information concerning the best places to fish, for those who are interested.

Dr. and Mrs. Zumwalt of Tulare, spent the weekend in their cabin at Cedar Slope having as

their guests, Mr. and Mrs. Henry Noia of Concord and Mr. and Mrs. Walter Sunkel also of Tulare.

Spring pig crop in the United States is expected to total 63,818,000 head, seven per cent greater than last spring.

Early potatoes in Kern and Tulare counties are now in the "clean-up" stage.

PRICE LEVEL FOR FARMERS ON DECLINE

General level of prices received by California farmers for their produce continued downward during the month ending June 15, according to figures released this week by the California Crop and Livestock Reporting service.

Mid-June prices for most crops, veal calves, lambs, wool and eggs were lower than a month earlier. The sharpest declines were registered in prices of beans, cottonseed, lemons and veal calves. These declines were only partially offset by moderate advances in the prices of wheat, oats, hogs and turkeys. Prices of other commodities showed little or no change compared to mid-May.

Livestock and poultry feed prices paid by farmers remained practically unchanged during the month.

Greater Resistance

(Continued from page 1) pull through the summer with very little damage to the crop. More seriously infected plants may

"There is no real control of this soil fungus at the present time. The only thing that cotton farmers can do is to maintain the best possible growing conditions for the plants. This means being sure that the plants always have an ample supply of water in the soil, yet not have a water-logged condition."

Potluck Supper

(Continued from page 1)

tary-treasurer. Recreation funds raised will be administered by the council; the Springville Lions club started the ball rolling this week with a \$200 contribution.

ning in brush areas where a burn has been completed.

Planned for Tuesday, July 24, are control burns in the area north of Springville.

Look For

(Continued from page 1)

as a water spray. Use $2\frac{1}{2}$ pounds of 25% wettable paraquat in 100 gallons of water, applying a thorough coverage. A spreader sticker should be added, following the manufacturer's recommendations.

For the successful use of paraquat in yellow scale work, it is essential that the dosage, as outlined, be maintained.

CAUTION: This material is highly toxic and all recommended precautions should be carefully observed.

Short Cuts For Kitchen Measure

Short-cuts is measuring the basic ingredients for baking will save time in the kitchen.

A one-cup measure, filled and leveled with a spatula, will equal 16 tablespoons. One quarter pound stick of butter equals eight tablespoons or one-half cup. If the recipe calls for one tablespoon, mark the cube onto eight equal sections and cut off one section. For four tablespoons, simply cut the cube in half.

Shipments of cantaloupes from Imperial valley are now declining after reaching a season peak June 14 and 15.

Cotton carry-over on July 31 is being estimated at 1.9 million bales, the smallest since 1925.
